Stanley Ocitti

Attending the University of Worcester helped give me the tools I needed to start my own business with confidence and a clear understanding of how small businesses operate in a global environment.

The benefits of attending the University go beyond the classroom. I was able to connect with a diverse community of people from various backgrounds, travel within the UK and gain an understanding of the culture and people.

Courses are fun and challenging and teachers are engaging and available outside of classroom hours. I would definitely recommend the University of Worcester to any student.
