OVERVIEW

The Software Engineering programme at the University of Bolton has been designed collaboratively working with industrial partners to ensure that students study a comprehensive programme of relevant industrial topics. Many of the graduates find successful careers in this lucrative area of employment.

ABOUT UNIVERSITY OF BOLTON

The University of Bolton, based in Bolton, United Kingdom, is dedicated to delivering excellence in education. With a rich history spanning over 190 years, the university is renowned for its rigorous academics and practical skills development. It prepares students for future careers by offering globally recognised programmes tailored to industry demands.

ENTRY REQUIREMENTS

We would need your CV, Level 5 in Computing or equivalent professional qualification, proof of ID and a completed application form to apply.

HOW STUDENTS STUDY

Learning and teaching methods apply a blended style. This may include lectures, seminars, tutorials and critiques, self-directed learning, e-learning and laboratory/workshop sessions, as well as online sessions and support. Practical skills are acquired through technical introduction and support, workshop sessions, demonstrations and activity-based assignments. Active learning is promoted with a strong practical theme, throughout.

QUALIFICATION STRUCTURE

The following modules will be covered in the BEng (Hons) in Software Engineering (Top-up) degree course, carrying a total of 120 credits.

Undergraduate Project - **60 Credits**

v

Agile Programming - **30 Credits**

v

Enterprise Systems Development - **30 Credits**

v

P[↑]ROGRESSION

Upon completion of the BEng (Hons) Software Engineering (Top-Up), you are eligible for Advanced Standing in the MSc Software Engineering programme, facilitated by the University of Bolton and WINC Online. The University of Bolton offers guaranteed progression routes for graduates. Additionally, students have flexibility to apply to other UK and international universities after obtaining their bachelor's degree.

CAREER PROGRESSION

The graduates of the BEng (Hons) Software Engineering (Top-Up) programme are primed for rapid career progression. Armed with advanced coding skills and a strong engineering foundation, they excel as software engineers, developers, analysts, and project managers. They make significant contributions to cutting-edge projects, shaping the future of technology.

ADVANTAGES To THE STUDENT

No need to 'travel' to class

Attend class when travelling away from the workplace

Recordings always available to review

Greater diversity of currently employed students

Parent university faculty involvement

Re-location/Visa not a problem

RESOURCES To SUPPORT DELIVERY

Initial joining instructions and support to download and use
Zoom Live

Asynchronous support using Moodle for resources, assignment
hand in (TurnItIn Integral)

Access to online resources - study skills support

Synchronous live delivery of lectures (can be recorded for
future reference)

One to one synchronous office hours

Thorough Induction covering all aspects

PROGRAMME LOGISTICS

Intakes in January, May and September

Admissions close on the date of Induction

Students are issued a University of Bolton Login and ID Number within 4 weeks

Access to Moodle comes with the Bolton Login

Access to Zoom is issued for Induction
